

Sport Premium Funding

What is it - and what can it be used for?

The sports premium is funding that can be spent on improvement to physical activity in schools. It can be spent on things that help schools, giving flexibility within guidelines. The funding should be used to benefit the pupils attending in future years, even after funding has been spent.

Why playground markings are a great way to spend funding...

Playground markings are a great way to transform your school's playground! Check out some of these photos to see how much of a difference they could make to your playground!

Why choose Thermmark?

Whilst we pride our company on its personalised approach, we are also one of the largest stockists and producers of playground markings in the world. We manufacture all of our products from start to finish here in the UK meaning we retain ultimate control over all aspects of your exciting new playground project! Over the last decade we have played an integral part in the development of thermoplastic products for the education, leisure and corporate sectors. This means you can rest assured the quality products you will receive are durable, weather resistant and made using extremely vibrant colour pigments, all providing your playground with an immediate transformation.

As we take a hand-crafted approach to everything we do, we provide a personal journey from the initial quote through to installation. At each point of the process one of our experienced team members will guide you through, helping to answer any queries you may have – just tell us what you are looking for!

Our in-house dedicated specialist design team loves bespoke projects and developing the most extravagant and exciting new designs. And we really do... HONESTLY we do! Nothing motivates us more than to create the most unique playground markings, it's outrageously entertaining for us!

We pride ourselves on providing you with superior products, faster. Our experienced installation teams have refined their techniques over many years and all of our innovative markings are designed to be as easy as possible to install to ensure that minimal disruption is created for you. And, as we know your amazing children will be following the whole process with anticipation, you will also be pleased to hear that your markings will be ready to be played on within just hours of the installation being completed so they don't have to wait too long!

The best markings to choose

The best markings to purchase with your sports premium funding are anything that promotes physical activity, such as fitness trails and long jumps. You can also choose markings that encourage learning, exploration, adventure, fun, and friendship, team building & collaboration. All of our package deals contain markings to encourage these things, making it easy for you to meet sports premium spending requirements, as well as provide your school with something to benefit pupils.

How our markings help engage students in and out of the curriculum...

Our wide range of markings make it easy for you to get students engaged in various activities, kickstarting a process of lifelong learning and fitness in and out of the classroom. We have markings to get your school involved in the Mile a Day - an initiative to get children performing a mile of running or jogging a day, as well as other markings to encourage fitness outside of the curriculum, as well as in PE classes. Markings based on other subjects, such as English, maths, geography, and science can make learning more fun for children, and get them out of the classroom and active. Above all, physical activity inspires creativity in and out of the classroom, and our markings can help pupils do just that.

What you can do now

Check out our package deals at playgroundmarkingsdirect.co.uk - deluxe and ultimate packages include a free school logo marking!
